

Applications for the Gynemed MediaLine

GM501 Flush
Aspiration medium

GM501 Wash or GM501 Wash with Phenolred and Gentamicin
Washing medium for oocytes

GM501 Hyaluronidase
Denudation of oocyte

GM508 CultActive
Activation of oocytes (ionophore)

GM501 EmbryoStore
Slow freezing kit

GM501 VitriStore
Vitrification kit

GM501 Cult
Culture medium with Gentamicin or Gentamicin and Phenolred optional

GM501 Mineral Oil
Cover of culture medium

GM501 SpermAir or SpermActive
Sperm processing

GM501 PVP
Immobilisation of sperm cells

Bromelaine in Dulbecco's PBS
Liquefy viscous semen (Bromelain)

GM501 Collagenase
Digestion of testicular tissue

GM501 Gradient
Density gradient medium

GM501 SpermStore
Freezing medium (sperm and testicular tissue)

GM501 SpermMobil
Sperm activation (Theophylline)

Oocyte

Sperm
