MVE ET Series

MVE® Asia

Features include

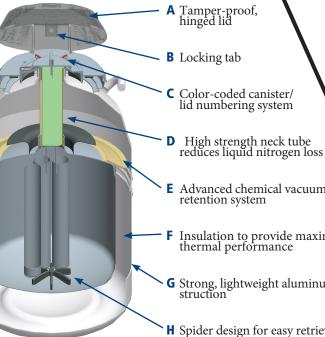

- Engineered specifically for farm use
- Precision manufacturing design
- Advanced vacuum technology and processing
- · Advanced neck joining methods
- Convenient lightweight package
- Low liquid nitrogen consumption
- Lockable Lid
- Low balanced profile (ET-16)
- Pail Handle (ET-2 to 16)

The ET Series is the realization of precision robotic manufacturing, new technology and MVE's signature quality. Each component has been carefully engineered to produce a global low-cost tank while maintaining the consistent quality necessary to carry the MVE name. Statistical process controls and robotic welding and wrapping techniques allow MVE to match performance to price, while durability and function remain the same.

> The smaller ET Series units are distinguished by the orange locking-lid, and utilize the composite neck and steel SuperCan. The ET-40 and the ET-47 both have MVE design black lids and 6/10 canister choice.

The ET-16 is the ideal technician tank offering a shorter but stable profile suitable for transport. The low center of gravity provides a well-balanced tank while stationary, yet functional when maneuvering with the ergonomic pail-type handle. With 9 (127mm) canisters, the ET-16 delivers a versatile storage option giving the technician the ability to separate the straws for optimal inventory management. Backed by MVE Asia, this durable, lightweight technician tank can be relied on to perform in the most demanding of environments.

Tank Features

- Advanced chemical vacuum
- Insulation to provide maximum thermal performance
- **G** Strong, lightweight aluminum con-
- H Spider design for easy retrieval and insertion of product canisters

* Static evaporation rate and static holding time are nominal. Actual rate and holding time will be affected by the nature of container use, atmospheric conditions, and manufacturing tolerances.

** Working Duration is an arbitrary reference, to estimate container performance under normal operating conditions in liquid storage. Actual working time may vary due to current atmospheric conditions, container history, manufacturing tolerances and patterns of use.

TWO Year Vacuum Warranty from the Date of Invoice

Conforms to MDD 93/42/EEC, the Medical Device Directive for the EU.
